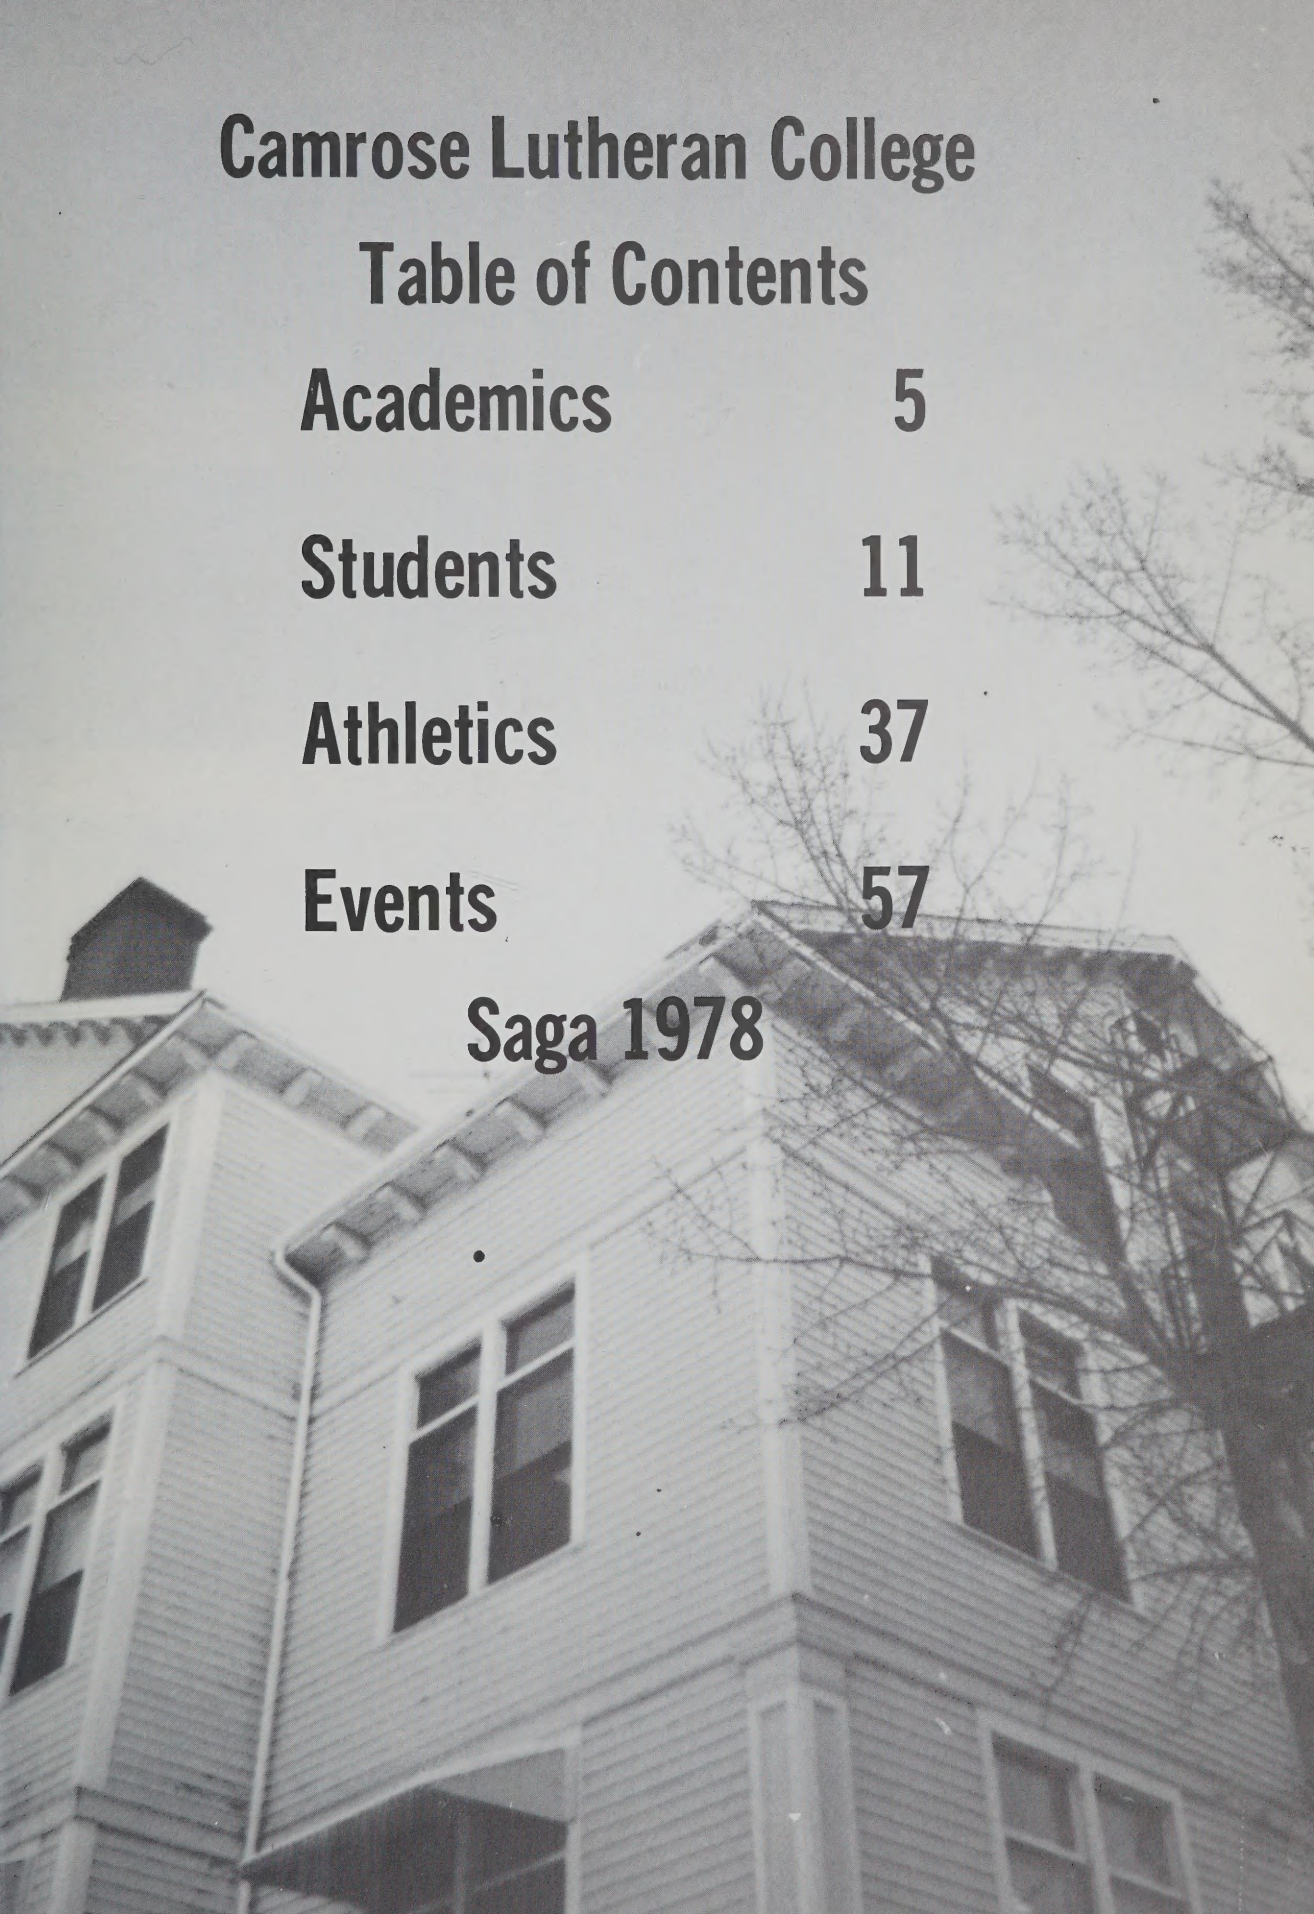
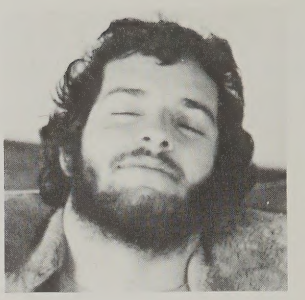
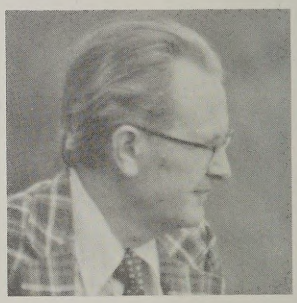
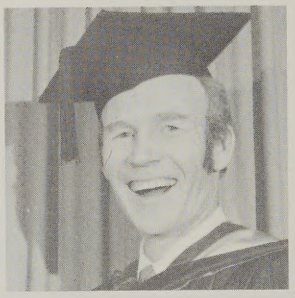
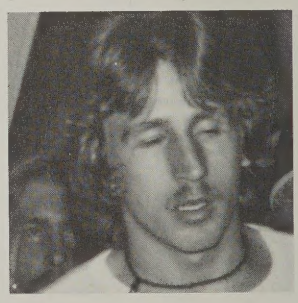
Saga 1978

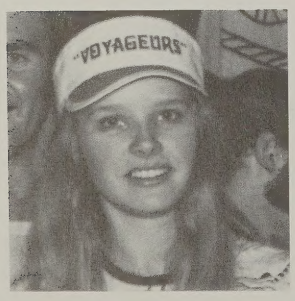




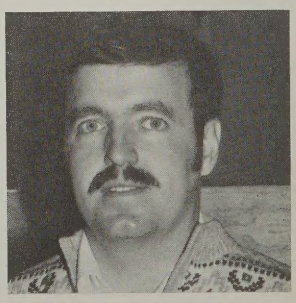








VOYAGEURS



There is a description of our Lord's youth that I like very much. It says of Him that he "increased in wisdom and in stature, and in favour with God and man".

The College over the past few years has been growing and developing especially in its university transfer program, its staff, students and facilities. It is my hope and prayer that this and all ensuing developing will receive the favour both of God and man.

This has been a year of growth and development for you the students at the College.

I hope that you will remember it with a measure of gratitude. We the staff will because it has given us joy. We have seen an increase in wisdom and stature in you. You have grown in favour with us and we believe, through grace, with the Father.

May all your years be enriched with a growth in wisdom and stature. May you every grow in favour with God and man.
